DETAILED ACTION

- 1. This Office Action is in response to the applicants' communication received on April 13, 2007.
- 2. Claims 1, 6, 7, 9-14, 19, 20, 22-27, 32, 33, and 35-39 are presented for examination.
- 3. The applicants have amended claims 1, 6, 7, 9, 10, 12-14, 19, 20, 22-27, 32, 33, and 35-39. The applicants have cancelled claims 2-5, 8, 15-18, 21, 28-31, and 34:
- 4. Applicants' arguments with respect to claims 1, 6, 7, 9-14, 19, 20, 22-27, 32, 33, and 35-39 have been considered but are deemed to be moot in view of the new grounds of rejection.

Claim Rejections - 35 USC § 112

- 5. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 6. Claims 1, 14, and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 1, 14, and 27 contain claim limitations that recite "optneutral" and "opt-in". The Examiner kindly suggests that the applicants consider including a "wherein" clause. This wherein clause should state in detail what an "optneutral" and "opt-in" customer is and what this customer does.

Claim Objections

7. Claims 1, 14, and 27 are objected to because of the following informalities:

These independent claims are objected to because the claim limitations of these independent claims only conclude with a "correlating" step. The claim limitations of these independent claims do not conclude with a concrete and tangible result. What happens as a result of the claim limitations being correlated with extracted data over a period of time. The claims recite the customer identifier for usage of the data, but what happens to the data that would bring about a transformation and a manipulation of the data that ultimately produces a concrete and tangible result (i.e., output, display, etc.).

The remaining claims comprise dependent claims, thus these claims are also objected to because they are dependent on the above rejected base independent claims.

Appropriate correction is required.
